Because of the newly added Retina HD display on iPhone 6 and the Plus, there would probably be more people to watch movies on iPhone once they get the devices. And as iTunes being the default online movie service for iPhone, most people will prefer to rent or purchase movies from iTunes for their iPhone 6 or iPhone 6 Plus. It would be fine for the purchased iTunes movies. However, problems occur when it comes to movies rented from iTunes. Due to the DRM protection, iTunes rentals come with expiration limit which allows users to keep the rental in 30 days only and forces them to finish watching the movie within 24 hours once started. That's to say, if you rent a movie from iTunes on iPhone 6 or

iPhone 6 Plus, it will disappear from your iPhone 6 once expired. So is there any way to unlock the restriction and keep iTunes rentals on iPhone 6 forever?
