

How to Play iTunes Downloaded Videos on Google Nexus 9

Posted by Andy Miller on November 04, 2014 11:05:35 AM.

On November 03, Google announced the new Nexus 9 tablet was released. Google Nexus 9 is the first tablet to run Google's Android 5.0 Lollipop. It was built by Google and HTC. As the Nexus 9 running the Android 5.0 lollipop, it looks like a dream and it's shine to consumers. It would be a great player to watch movies/TV shows.

Why Google Nexus 9 is attractive?

- * Android 5.0 Lollipop
- * Warm New Design
- * K1 chipset

Why Google Nexus 9 is not so perfect?

- * Screen is solid
- * BoomSound speakers is not so perfect as HTC One M series
- * No expandable memory

Why We Can't Watch iTunes Movies on Google Nexus 9 Tablet?

Google Nexus 9 must be the best companion for Google play content. For people who buy movies/music from Google play, they can enjoy these content on Google Nexus 9 directly with their Google account. However, if you usually buy or rent movies/TV shows from iTunes store, you can't play the iTunes downloaded videos on Google Nexus 9 directly because of the DRM protection. We have to find a 3rd party DRM removal software to remove the annoying DRM protection.

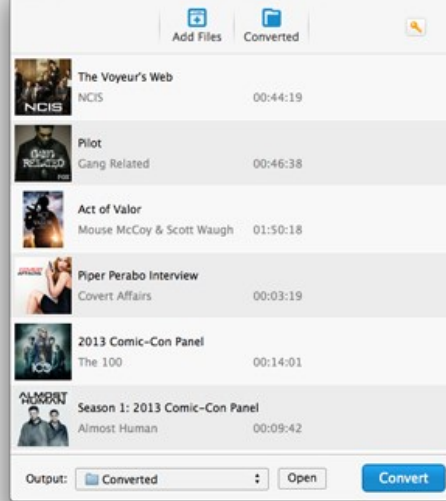

[TunesKit DRM iTunes Video to Google Nexus Converter](#) is a strongly recommended application for converting iTunes DRMed videos to Google Nexus 9 video formats. In this article, we want to introduce detailed steps on how to transfer iTunes movies to Google Nexus 9.

Tutorial: Watch iTunes Movies on Google Nexus With TunesKit

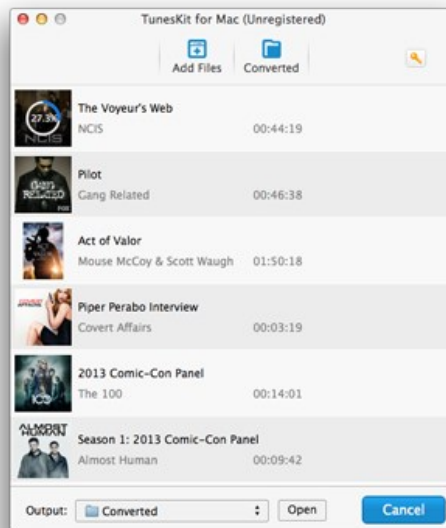

Step 1 Add iTunes video to TunesKit

Launch TunesKit iTunes video to Nexus Converter on your Mac, then click "Add Files" button, you are allowed to choose iTunes movies from iTunes library. And you can also drag and drop the iTunes movies to TunesKit directly.

Step 2 Start to Convert iTunes M4V to MP4 for PlayStation 4

Click "**Convert**" button to begin converting iTunes M4V to compatible MP4 format for playing on Google Nexus 9.

No other settings needed before the conversion. TunesKit iTunes video to Nexus Converter will help you get rid of the DRM protection and convert iTunes DRM M4V to universal MP4 format, which is compatible with any mobile devices and media players.

Step 3 Transfer converted MP4 videos to Google Nexus 9

There are two different methods to transfer iTunes movies to Google Nexus 9 tablet.

Method one, transfer iTunes movies to Google Nexus 9 via USB cabler. Just plug your Google Nexus 9 to computer with an USB cable, then you can see the removable disk icon on the Window, just copy and paste the iTunes movie to Nexus 9 to an appropriate folder.

Method two, stream iTunes movies to Google Nexus 9 via cloud service. Login the Google Play with your google account, then choose "My Movies" option, and upload converted iTunes movies to Google Play. All uploaded content will be streamed automatically to Google Nexus 9 if you use the same Google account.
